Year-over-year roll-up

Merged spans are a separate table so a reader that ignores spans cannot hide it behind the first grid.

Quarter	Marketing	Research	Support	Total
	120	240	80	440
Q1	138	252	91	481
H1			258	921

H1 collapses the two quarters into a single row; the marketing, research and support columns are merged on that row.
